

COMING SOON TO A PLANET NEAR YOU...

What happens when our pollinators become extinct?

Are humans next?

Death BEE Upon Us

a documentary film

★ What role do you want to play in this horror film in the making? ★

YOUR HELP IS URGENTLY NEEDED TO SOLVE OUR POLLINATOR DECLINE PROBLEM

PLAY a part in creating a **DOCUMENTARY** film. **CHALLENGE** yourself to learn about this important issue.

ENTER THE ESSAY CONTEST

Put on your thinking cap, do your homework, and **ENTER YOUR ESSAY** for a chance to be **ON** the film crew and be **IN** this important film.

A documentary film crew will be selected from the winning essays. Please **CONTACT** the Death BEE Upon Us campaign committee for **ALL THE DETAILS** and official rules for submitting your essay.

"Last year the U.S. **LOST** a mind-boggling **44 PERCENT** of its honeybee colonies." --NBC News

The pollinators that feed our planet are **DYING** at an unprecedented rate. **HOW MUCH TIME DO WE HAVE** once they are gone?

JOIN IN ON THE CONVERSATION AND BEE PART OF THE SOLUTION
COME OUT TO OUR NEXT WORKSHOP AND BEE HEARD!

SUNDAY, 1 OCT 2018

THE COMMUNITY CENTER
@ 123 BEEBALM LANE

6 : 30 IN THE EVENING

BEE THERE OR BEE-WARE

The Death BEE Upon Us campaign and workshops are designed to introduce and explain the issue of pollinator decline, how it affects everyone on the planet, and how you can **BEE A PART OF FINDING A SOLUTION** to this global problem.

"...large numbers of pollinators are dying. With the world's population projected to exceed 9 billion in just the next 30 years or so, that is not a good position for us to be in." --USDA

"Without pollinators, we don't eat—it's simple as that." --USDA

THIS REAL LIFE **PREVIEW** HAS BEEN APPROVED FOR **THINKING AUDIENCES**

THE DRAMA ADVERTISED HAS BEEN RATED
